More bang for your click with slick new website

- Each year, over \$1 million is donated to the Thunder Bay Regional Health Sciences Foundation. You can learn how those donations support excellence in healthcare for the people of Northwestern Ontario.
- Approximately 75 different events are held in support of the Health Sciences Foundation. There's an easy way to make sure you don't miss out any of them.
- Making a donation in honour of a loved can help hundreds, even thousands, of people in our community for years to come. You can make that gift from the comfort of your own home.
- You can help improve the quality of healthcare by hosting an event in support of the Health Sciences Foundation. Information to help you plan an event is at your fingertips.

All of this and more can be found at [www.healthsciencesfoundation.ca](http://www.healthsciencesfoundation.ca), the new website of Northwestern Ontario's most effective fundraising organization.

Health Sciences Foundation President & CEO Glenn Craig says the new website reflects the comprehensive and progressive nature of the organization. "Our key focus when building this new website was to provide a more thorough resource tool while enhancing functionality for users," he says. "It's a modern, community-oriented website relevant to everyone in this region. I encourage people to visit it ... I think they will be pleased!"

[www.healthsciencesfounda.ca](http://www.healthsciencesfounda.ca) is a dynamic and interactive website. It includes special features such as font size selection, a month-at-a-glance events calendar, a secure on-line donation form, a volunteer application form and event photo albums. People can even use the website to say "Thank You" to caregivers at Thunder Bay Regional Health Sciences Centre.

The development of the new website was prompted by the earlier integration of the Northern Cancer Research Foundation and the former Thunder Bay Regional Health Sciences Foundation. The site enables users to learn more about the new Health Sciences Foundation, the Northern Cancer Fund, the Northern Cardiac Fund and all areas of healthcare supported by the Health Sciences Foundation.

Together, we make a healthier Northwestern Ontario.
