ABOUT US

The Thunder Bay Regional Health Sciences Foundation is a not-for-profit organization dedicated to improving healthcare in Northwestern Ontario. Guided by the principle "Together, for better," all contributions stay local within the region, enhancing patient care and outcomes. Through community support, the Foundation continues to advance healthcare for the people of Northwestern Ontario.

WHO WE ARE

Our Foundation raises money for advanced healthcare in Thunder Bay and across Northwestern Ontario, which includes places like Kenora, Red Lake, Fort Frances, and beyond.

The best part is that all the money raised stays local; it goes towards medical equipment, programs, and better care for patient's right here.

We have three main funds:

**Northern
Cancer Fund**

**Northern
Cardiac Fund**

**General
Health Fund**

FUN FACT!

You can actually raise money for any hospital department; mental health, NICU, urology, paediatrics, you name it!

Cardiovascular Campaign

OUR HEARTS AT HOME

With your help, we will provide the equipment and funding needed to establish Ontario's newest Cardiovascular Surgery Program in Northwestern Ontario.

As construction is underway, we are actively raising funds for the specialized equipment that will support this life-saving program. Your fundraising efforts will ensure our teams have the tools to deliver exceptional cardiac care.

Choose Our Hearts at Home as the focus of your fundraising event and make a direct impact on heart care in our region.
